Summary

Full-stack Software Developer with a focus on front-end, specifically in React and Node.js. I have experience in web development using technologies such as HTML, CSS, JavaScript, React, TypeScript, Tailwind, Styled-components, Material UI, Bootstrap, and Sass. I also have back-end skills, working with Node.js, Express, and databases such as MongoDB and SQL. Additionally, I have knowledge in mobile development with React Native. I am always seeking to stay up-to-date with technological trends to develop creative and efficient solutions for clients.

Skills

- Front-End: Javascript/Typescript, React, Material-UI, Styled components, Tailwindcss, HTML, CSS.

- Back-End: Javascript/Typescript, Node, Express, MongoDB, SQL, Prisma.

- Mobile: React Native, Expo

Certifications and courses
- Information systems (Degree)
  FHO | Fundação Hermínio Ometto, 2024 - 2028

- Ignite
  Rocketseat, 2023.

- Fullstack Javascript
  OneBitCode, 2022.

Languages
- English - B2/C1
- Portuguese - fluent

Professional experience

Software Engineer | KPMG - Brasil   **05/22 - Present**
- Full-stack developer working with React and Node, capable of understanding customer needs and designing innovative solutions. I work collaboratively with cross-functional teams to develop, test, and deploy high-quality applications.

Additionally, I also perform prototyping using Figma to ensure customer needs are met from the start of the process. I have strong communication skills and I am always ready to listen to feedback and to implement it in ongoing projects.

Fullstack Software Developer | Freelancer   **01/22 - Present**

- Throughout my freelance career, I specialized in developing robust administrative and inventory control systems. Leveraging my expertise in web development, I utilized React for the frontend and Node.js for the backend, delivering efficient and scalable solutions. I proficiently managed data with MongoDB as the database system, ensuring data integrity and system security. My freelance experience underscores my capacity to design and implement effective software solutions tailored to the specific needs of each project.
